Dear Cristian

The VISTA Project Office would like to take this opportunity to congratulate your company, on the successful and timely completion of our contract for installation of the medium voltage cables, for the VISTA telescope construction, at the European Southern Observatory in Paranal Chile. The VPO were impressed with the professional manner in which the work was undertaken and by the expertise demonstrated by your company. We would have no reservation in placing a contract with your company again in the future or in providing a recommendation of your work.

Kind regards.

Yours sincerely,

Alistair McPherson
VISTA Project Manager
